

Activism in June!

Find out what's going on in the world this June. You can use the 'Activism in ___' to educate yourself and do your bit!

WE DA PEOPLE

WE DA PEOPLE is a non profit organization and it is planned to travel around all around America this summer, going into urban communities and implementing education programs and more for black youth. This is an incredible cause and if you can, donate here: <https://gofund.me/a6eb4cd3>

Kamloops School

Recently the remains of 215 children, some as young as young as three years old were found in Canada buried on the former site of the Kamloops Indian residential school. Me shows us pictures from these times in black and white to try and cover up the fact it did not happen a long time ago- the last of these schools shut in 1996. Check in on your Indigenous friends right now to see how they're feeling- this is a terrible, and awfully sad thing and I am sending love and support to the Indigenous community.
